Bendix is hosting a T.M.T.A. meeting **Tuesday February 18th, 2025**. The meeting will include information on the Bendix's newest technology and maintenance procedures. Pierre Brideau aftermarket account manager for Bendix CVS Canada will be the presenter for the evening. The theme of the presentation will be the inclusion of "intelligence or prognostics " in the brake system in 2025. As well as an update for remanufactured disc brake calipers.

Topics: - Remanufactured versus jobber replacement calipers.

- Type N friction material for commercial vehicles (S-cam and disc)
- Adding intelligence in the existing brake systems
- "iSense" wear indication for disc brake
- AD-HF I and GSAT electronic controlled air dryers (prognostic maintenance notification for service)
- GSBC – Introduction of full EBS brake systems in North American market (Volvo VNL 860)

The meeting will be held at the Marconi Club, 120 Clarke Road, London, ON. Our meet and greet will **begin at 6:00 pm, a fantastic meal at 7pm**, followed by the Bendix **presentation**.

Everyone is welcome to be part of this informative evening, but we are asking participants to please confirm your attendance, so we can be prepared with a wonderful full course meal. There is no fee for the meeting or meal.
