### **THOUGHT FOR THE MONTH**

“Good friends help you to find important things when you have lost them...your smile, your hope, and your courage.” –  
Doe Zantamata

**Ministry of Transportation of Ontario** District Enforcement Manager **Ewoud VanGoch** was our guest for the June meeting and he brought along enforcement officer **Andy Brown** to talk to us about some of the unfortunate practices they have observed in installation of hub piloted wheels. Ewoud gave us details about some of the accidents that have happened and the number of out-of-service incidents that they have encountered in the southwestern region. Andy followed up with a power point of the proper procedures for installing hub piloted wheels and some pictures of what wheels look like when they are not installed properly. Most of the time when a wheel part fails, it usually points back to improper installation or poor maintenance. Some of the most important parts of the installation procedure are being ignored or carried out improperly. Andy stressed how important it is to follow procedures to the letter. After the presentation Ewoud let us know that he was becoming a TMTA London member, and offered his services as our resource person with the MTO. Thank you Ewoud and Andy for your time. Welcome to the TMTA.
