THOUGHT FOR THE MONTH

“Friendship is the hardest thing in the world to explain. It's not something you learn in school. But if you haven't learned the meaning of friendship, you really haven't learned anything. “
-Muhammad Ali

Meritor is a global leader in drivetrain technologies for commercial vehicles and has their head office close by. Meritor invites TMTA London members and their friends for a technical seminar on drivetrain products for the trucking industry with a special focus on Meritor's high efficiency drive axles, brake technologies and electrification. Ever since **Reduced Stopping Distance (RSD)** regulations came in effect, Meritor had launched innovative braking solutions and service features for both drum and disc brakes. They have lead the way on improvements and materials that make sure our trucks are compliant with the regulations and safer on the highways. Meritor representatives will cover in detail the important aspects on this technology and be on hand to answer all our questions about any issues or questions we have.

Our History

The executive team has been working with our records and senior members to detail our history back to 1947. They are compiling pictures and membership information to add to the historical data. If you have information to share, then please contact Don Clarke or Harry Beukeboom
